

# CENTER OF EXCELLENCE IN ENDOCRINE SURGERY

In partnership with key leaders and industry professionals, SRC developed the Center of Excellence in Endocrine Surgery (COEES) program. The COEES program identifies surgeons and facilities worldwide performing Endocrine surgery and achieving defined standards for patient safety and care quality.

## PROGRAM REQUIREMENTS

### 1. INSTITUTIONAL COMMITMENT TO EXCELLENCE

The applicant facility is committed to excellence in endocrine surgery and has credentialing and privileging guidelines in Endocrine surgery.

### 2. SURGICAL EXPERIENCE

The applicant facility performs at least 100 endocrine surgeries annually. Each applicant surgeon performs at least 100 qualifying endocrine surgeries annually with a minimum of 50 thyroid, 12 parathyroid and 5 adrenal gland surgeries and has served as the primary surgeon for at least 125 qualifying endocrine surgeries with a minimum of 50 thyroid, 12 parathyroid and 6 adrenal gland surgeries in their lifetime. Applicants perform each surgical procedure in a standardized manner and use a template for operative note dictation to ensure proper data collection for surgical procedures.

### 3. PHYSICIAN PROGRAM DIRECTOR

The applicant facility must appoint a Physician Program Director (or Co-Directors) for the COEES program who is accredited or in the process of becoming accredited.

### 4. CONSULTATIVE SERVICES

The applicant facility must have a full complement of consultative services required for the routine and intensive care of endocrine surgery patients and their potential complications including: anesthesiologist or CRNA, ACLS-certified physician or team, critical care specialist/intensivist, cardiologist or pulmonologist, vascular surgeon, pathologist, endocrinologist, interventional radiologist, infectious disease specialist, geneticist.

### 5. EQUIPMENT AND INSTRUMENTS

The applicant facility must maintain a full line of equipment and surgical instruments to provide perioperative care for endocrine surgery patients and have documented training for appropriate staff in the safe operation of this equipment.

### 6. SURGEON DEDICATION AND QUALIFIED CALL COVERAGE

Each applicant surgeon has privileges in endocrine surgery at the applicant facility, is board-certified or an active candidate for board certification in their surgical specialty and has qualified call coverage. Each applicant completes at least 12 hours of CME focused on endocrine surgery every three years.

### 7. CLINICAL PATHWAYS AND STANDARDIZED OPERATING PROCEDURES

Applicants formally develop and implement all required clinical pathways that facilitate the standardization of perioperative care for endocrine surgery procedures. Clinical pathways are supported by standardized preoperative, postoperative and discharge physician order sets.

### 8. SURGICAL TEAM AND SUPPORT STAFF

For each department seeking accreditation, the facility is required to have a designated program coordinator, along with nurses, physician extenders, and a consultative team. This team must be committed to providing high-quality patient care and participate in ongoing, regularly scheduled in-service education sessions to uphold accreditation standards.

### 9. PATIENT EDUCATION

The facility and each applicant surgeon provide all endocrine surgery patients with preoperative patient education, have a process for obtaining informed surgical consent and selecting procedures that are most appropriate for each patient's condition.

### 10. CONTINUOUS QUALITY ASSESSMENT

All applicants must collect prospective outcomes data on all patients who undergo endocrine surgery procedures in SRC's Outcomes Database (or a similar qualifying database).

This is a summarized list of program requirements which is subject to change. For additional information, please contact SRC by emailing [businessdevelopment@surgicalreview.org](mailto:businessdevelopment@surgicalreview.org) or calling 919.438.2156.
