

CENTER OF EXCELLENCE IN METABOLIC & BARIATRIC SURGERY

In partnership with key opinion leaders and industry professionals, SRC developed the Center of Excellence in Metabolic & Bariatric Surgery (COEMBS) program. The COEMBS program identifies surgeons and facilities worldwide performing metabolic and bariatric procedures and achieving defined standards for patient safety and care quality.

PROGRAM REQUIREMENTS

1. INSTITUTIONAL COMMITMENT TO EXCELLENCE

The applicant facility is committed to excellence in metabolic and bariatric surgery and has credentialing and privileging guidelines in bariatric surgery separate from general surgery guidelines.

2. SURGICAL EXPERIENCE

The applicant facility performs at least 80 metabolic and bariatric surgeries annually. Each applicant surgeon performs at least 50 qualifying surgeries annually and has performed at least 125 qualifying metabolic and bariatric surgeries in their lifetime. Applicants perform each surgical procedure in a standardized manner and use a template for operative note dictation to ensure proper data collection for surgical procedures.

3. PHYSICIAN PROGRAM DIRECTOR

The applicant facility must appoint a Physician Program Director (or Co-Directors) for the COEMBS program who is accredited or in the process of becoming accredited.

4. CONSULTATIVE SERVICES

The applicant facility must have a full complement of consultative services required for the routine and intensive care of bariatric surgery patients and their potential complications including: anesthesiologist or CRNA, ACLS-certified physician or team, critical care specialist, interventional radiologist and a physician capable of performing endoscopies.

5. EQUIPMENT AND INSTRUMENTS

The applicant facility must maintain a full line of equipment and surgical instruments to provide perioperative care for bariatric surgery patients and have documented training for appropriate staff in the safe operation of this equipment.

6. SURGEON DEDICATION AND QUALIFIED CALL COVERAGE

Each applicant surgeon has privileges in general and bariatric surgery at the applicant facility, is board-certified or an active candidate for board certification in metabolic and bariatric surgery and has qualified call coverage. Each applicant completes at least 24 hours of CME focused on metabolic and bariatric surgery every three years.

7. CLINICAL PATHWAYS AND STANDARDIZED OPERATING PROCEDURES

Applicants formally develop and implement all required clinical pathways that facilitate the standardization of perioperative care for bariatric surgery procedures. Clinical pathways are supported by standardized preoperative, postoperative and discharge physician order sets.

8. SURGICAL TEAM AND SUPPORT STAFF

For each department seeking accreditation, the facility is required to have a designated program coordinator, along with nurses, physician extenders, and a consultative team. This team must be committed to providing high-quality patient care and participate in ongoing, regularly scheduled in-service education sessions to uphold accreditation standards.

9. PATIENT EDUCATION

The facility and each applicant surgeon provide all bariatric surgery patients with preoperative patient education, have a process for obtaining informed surgical consent and selecting procedures that are most appropriate for each patient's condition, as well as provides organized and supervised support groups for bariatric surgery patients.

10. CONTINUOUS QUALITY ASSESSMENT

All applicants must collect prospective outcomes data on all patients who undergo bariatric surgery procedures in SRC's Outcomes Database (or a similar qualifying database).

This is a summarized list of program requirements which is subject to change. For additional information, please contact SRC by emailing businessdevelopment@surgicalreview.org or calling 919.438.2156.
